## I know I should exercise more, but...

Most of us simply do not get enough exercise and find ourselves making excuses...

..."I'm tired... I'll just skip my workout today."

..."Next week ... I'll start on a good program."

..."Boy, I'm sore... I'd better lay off for a few days."

**Do any of these sound familiar?** Probably. But now, thanks to an extraordinary invention, you may actually want to find time with the *Sun Harmony Chi Machine*- a *passive aerobic exerciser*, which has been in the United States for 11 years.

Dr. Shizuo Inoue, a Japanese medical doctor, studied the effects of oxygenation on the human body. He did 38 years of research. His research had convinced him that "**LACK OF OXYGEN is the root of most or perhaps even all disease**". He then set out to find the most effective way to get that oxygen to the body.

He combined ancient Chinese therapy, and modern technology, giving us the **ORIGINAL SUN HARMONY CHI MACHINE**. It is a **quality, scientifically precise machine** with very specific features, bringing wonderful results for many thousands.
